WHAT TO EXPECT FROM THIS COURSE?

Not only theory but also hands on with typodonts! This course is dedicated to all doctors who wants to increase their skills on the Invisalign technique and become an expert. During this full immersion masterclass of 3 full days, all attendees will have the opportunity to not only learn from speakers how to handle treatments with specific protocol in planning, but also cover one of the most common problem: handle all hands on procedures involved in every Invisalign treatment, from impression taking, to attachment placement, IPR procedures and use of auxiliaries. In a dedicated area with typodonts attendees will use the most advanced procedures using the most predictable and state of the art materials. A specific session with Clincheck will be included in the course. All lectures will be in english.
